

5 Steps To Success

Staging Your Home

Detail Home

De-Clutter

Pre-Pack

Neutralize Rooms

Clean Home

Start with the front of home and work your way through the home & end up in the backyard

Cue tip clean

Condition

Issues should be done before any staging occurs to home

Color

Fresh paint can make a real difference. It is the frosting on the cake. Use colors that will appeal to the greatest number of people. You may prefer something bolder or outrageous for yourself, but when selling a product, neutral-colored interior paints work best.

Creativity

Use your imagination – make a simple room look eye catching. You do not have to spend money to be creative.

Carl Vargas Team

Serving the real estate needs of Hendricks and surrounding counties for over 25 years.
